

Student Assistant - Cash Market Development (f/m/d)

Start: February | Duration: 12 (in months) | Part-time

Field of activity

The department Cash Market Development – Products & Regulation is responsible for the strategic development of the cash market in the domain of equities and exchange traded products such as ETFs & ETPs. Therefore, market and industry trends are analysed and options for new markets, products and customer groups are derived. The development of innovative business models and their implementation are in the foreground. As a student you will have the opportunity to gain valuable experience in an innovative company and accompany interesting projects from development to implementation. You will take on responsibility at an early stage and will be actively involved in projects from the very beginning.

Tasks/responsibilities

- Support in the listing process of ETFs & ETPs
- Generation of reports to analyse the performance of various ETFs & ETPs
- Support in project based tasks and working self-reliantly on own projects
- Support in the collection analysis and visualisation of data related to ETFs & ETPs

Qualifications/required skills

- Students must be enrolled in an academic programme recognized by the state during the whole term
- Will be required to have at least successfully completed the third semester
- Interest in financial markets and equity markets
- Independent working attitude and flexibility
- Good organisational skills, team spirit and excellent communication
- Fluency in German and ideally English
