

Student Assistant - Cash Market Development Analysis (f/m/d)

Start: February | Duration: 12 (in months) | Part-time

Field of activity

The department Cash Market Development – Products & Regulation is responsible for the strategic development of the cash market in the domain of equities and exchange traded products such as ETFs & ETPs. Therefore, market and industry trends are analysed and options for new markets, products and customer groups are derived. The development of innovative business models and their implementation are in the foreground. As a student/internship student, you will have the opportunity to gain valuable experience in an innovative company and accompany interesting projects from development to implementation. You will take on responsibility at an early stage and will be actively involved in projects from the very beginning.

Tasks/responsibilities

- Support and implementation of qualitative and quantitative market analysis and competition analysis
- Generation of reports to analyse the performance of various ETFs & ETPs
- Development and compilation of regular reports and statistics
- Preparation of presentations and documentation for decision-making purposes
- Work on on-going projects in the department

Qualifications/required skills

- Students must be enrolled in an academic programme recognized by the state during the whole term
- You will have at least successfully completed the third semester
- Confident handling of MS-Excel, basic knowledge in MS-PowerPoint
- Interest in financial markets and equity markets
- Independent working attitude and flexibility
- Fluency in English and ideally German
